Subject: Clearance of KIBITZ 15

Request that the Operational Clearance, No. 1308, dated 3 January 1952, be cancelled since we have reason to believe that he is insecure, both operationally and personally. In addition, he is known to be an unrepentant Nazi. There is, further, reason to believe that the operation in which Subject is involved may have come to the attention of the West German authorities, possibly as a result of Subject's personal activities.
